 #131 Purok 2 Brgy. Antipolo del Norte Lipa City, Batangas, 4322

PROFILE

A driven and detail-oriented third-year Information Technology student with strong analytical skills and experience in project management. Experienced in leading academic group projects, coordinating tasks, and ensuring timely delivery of results. Eager to apply technical skills and organizational abilities in an Associate Project Manager Intern role to support successful IT projects.

SKILLS

- Verbal and Written Communication Skills
 - Strong Organizational and Time Management Abilities
 - Effective Team Collaboration and Partnership
- Analytical Problem-Solving Skills
 - Basic Understanding of Agile Methodologies
 - Attention to Detail and Accuracy
 - Creative Thinking and Innovation

PROJECTS

- Dormio: Integrated System for Dormitory Operations and Communication**

December 2024

 - Led the team to develop a dormitory management system for a school project. Dormio targets dormitory residents, administrators, and staff to enhance the user experience in dormitories. The system was designed to improve operational efficiency, enhance security through monitoring, and provide a better living experience for residents.
- DentaAnalytix: Enhancing Dental Clinic Administration through Database Management System**

May 2024

 - Took part in developing a management system for HD Smile Studio for an academic project. The system was developed to digitize patient records, improve appointment scheduling, enhance accessibility, and enhance security, enabling timely decision-making, individualized treatment, and efficient data retrieval.
